Oportun Reports Strong Second Quarter 2023 Financial Results

Record revenue of \$267 million, 18% year-over-year growth

Guiding to lower losses in second half

Lowest quarterly operating expense since 2021, 14% year-over-year decline

Two new whole loan flow sale agreements totaling up to \$700 million executed

Total members exceed 2 million

SAN CARLOS, CA – August 8, 2023 – Oportun Financial Corporation (Nasdaq: OPRT) ("Oportun", or the "Company") today reported financial results for the second quarter ended June 30, 2023.

"Our second quarter results marked a significant turning point as our strong top-line performance came in tandem with our lowest quarterly operating expenses since mid-2021, and we met or exceeded each of our guidance metrics," said Raul Vazquez, CEO of Oportun. "We've made great strides in addressing credit losses, and expect to see meaningful declines in loss rates starting with Q3. We also achieved record total revenue of \$267 million, representing 18% year-over-year growth, despite a full year under a tightened credit posture. In addition, we demonstrated Oportun's ability to access diversified sources of capital by completing two new significant financing agreements to sell up to \$700 million in personal loan production over the next twelve months. Entering the back-half of 2023 with over two million members, we see the emergence of a leaner, more profitable Oportun. Our revised guidance reflects that we will generate \$90 to \$95 million in Adjusted EBITDA over the next two quarters, more than we generated over the prior sixteen quarters combined as a public company."

Business Highlights

- Members were 2.0 million, an increase of 10% compared to the prior-year quarter
- Products were 2.2 million, an increase of 12% compared to the prior-year quarter
- Aggregate Originations were \$485M, down 45% compared to the prior-year quarter
- Managed Principal Balance at End of Period was \$3.25B, flat compared to the prior-year quarter
- Annualized Net Charge-Off Rate of 12.5% as compared to 8.6% for the prior-year quarter
- 30+ Day Delinquency Rate of 5.3% as compared to 4.3% for the prior-year quarter, and 5.5% in prior-quarter

¹ See the section entitled "About Non-GAAP Financial Measures" for an explanation of non-GAAP measures, and the table entitled "Reconciliation of Non-GAAP Financial Measures" for a reconciliation of non-GAAP to GAAP measures.

Financial and Operating Results

All figures are as of or for the quarter ended June 30, 2023, unless otherwise noted.

Growth Highlights

Members – Members as of the end of the second quarter grew to 2.0 million, up 10% from 1.8 million as of the end of the prior-year quarter.

Products – Products as of the end of the second quarter grew to 2.2 million, up 12% from 1.9 million as of the end of the prior-year quarter.

Originations – Aggregate Originations for the second quarter were \$485 million, a decrease of 45% as compared to \$878 million in the prior-year quarter. The decrease was primarily driven by fewer loans originated due to the Company tightening its credit underwriting standards and focusing lending toward existing and returning members to improve credit outcomes, and was partially offset by growth in average loan size due to the focus on lending to returning members.

Financial Results

Revenue – Total revenue for the second quarter was \$267 million, an increase of 18% as compared to \$226 million in the prior-year quarter. The increase was primarily attributable to higher interest income due to growth in the Company's Average Daily Principal Balance. Net revenue for the second quarter was \$119 million, a decrease of 18% as compared to net revenue of \$145 million in the prior-year quarter. Net revenue declined from the prior-year quarter due to elevated charge-offs driven by our back book of loans originated prior to June 2022 when we materially tightened our underwriting standard and increased interest expense, partially offset by increased revenue.

Operating Expense and Adjusted Operating Expense – For the second quarter, total operating expense was \$136 million, as compared to \$158 million in the prior-year quarter. This was attributable to a combined set of initiatives in February and May to deliver \$126 to \$136 million in annualized expense savings. Adjusted Operating Expense, which excludes stock-based compensation expense and certain non-recurring charges, decreased 17% year-over-year to \$116 million.

Net Income (Loss) and Adjusted Net Income (Loss) – Net loss was \$15 million as compared to a net loss of \$9.2 million in the prior-year quarter. Adjusted Net Income was \$2.3 million as compared to \$3.8 million in the prior-year quarter. The decreases in net income and Adjusted Net Income are attributable to elevated charge-offs driven by our back book and increased interest expense, partially offset by increased revenues and lower operating expenses.

Earnings (Loss) Per Share and Adjusted EPS – GAAP net loss per share, basic and diluted, were both \$0.41 for the three months ended June 30, 2023. GAAP net loss per share, basic and diluted, were both \$0.28 in the prior-year quarter. Adjusted Earnings Per Share was \$0.06 as compared to \$0.11 in the prior-year quarter.

Adjusted EBITDA – Adjusted EBITDA was \$4.3 million, up from a \$4.5 million loss in the prior-year quarter.

Credit and Operating Metrics

Net Charge-Off Rate – The Annualized Net Charge-Off Rate for the quarter was 12.5%, compared to 8.6% for the prior-year quarter.

30+ Day Delinquency Rate – The Company's 30+ Day Delinquency Rate was 5.3% at the end of the quarter, compared to 4.3% at the end of the prior-year quarter and 5.5% in prior-quarter. 30+ Day Delinquency Rates on vintages originated since significant July 2022 credit tightening are performing near or better than comparable vintages originated in 2019. 30+ Day Delinquency Rates are presented on page 11 of the Company's Earnings Presentation available at investor.oportun.com.

First Payment Defaults – First Payment Defaults on newly-originated loans continue to come in at pre-pandemic 2019 levels due to the Company's tightening of credit underwriting standards and focusing lending towards existing and returning members to improve credit outcomes. The Company regards First Payment Defaults to be an early indicator of credit performance as the outstanding principal balance of loans that have their first payment past due are regarded as more likely to default and result in a charge-off. First Payment Defaults are calculated as the principal balance of any loan whose first

payment becomes 30 days past due, divided by the aggregate principal balance of all loans originated during that same week. First Payment Defaults are presented on page 10 of the Company's Earnings Presentation available at investor.oportun.com.

Operating Efficiency and Adjusted Operating Efficiency – Operating Efficiency for the quarter was 51% as compared to 70% in the prior-year quarter. Adjusted Operating Efficiency for the second quarter was 43%, as compared to 62% in the prior-year quarter. Adjusted Operating Efficiency excludes stock-based compensation expense and certain non-recurring charges, such as the Company's workforce optimization expenses and acquisition and integration related expenses. The decline in Operating Efficiency and Adjusted Operating Efficiency reflect the Company growing its revenue while exercising strong expense discipline to reduce operating expenses.

Return On Equity ("ROE") and Adjusted ROE – ROE for the quarter was (13)%, as compared to (5.7)% in the prior-year quarter. Adjusted ROE for the quarter was 2.0%, as compared to 2.3% in the prior-year quarter.

Other Products

Secured personal loans – As of June 30, 2023, the Company had a secured personal loan receivables balance of \$128 million, up 28% from \$100 million at the end of the second quarter 2022.

Credit card receivables – As of June 30, 2023, the Company had a credit card receivables balance of \$120 million, up 1% from \$119 million at the end of the second quarter 2022.

Funding and Liquidity

As of June 30, 2023, total cash was \$202 million, consisting of cash and cash equivalents of \$73 million and restricted cash of \$129 million. As of July 31, 2023, total cash was \$209 million, consisting of cash and cash equivalents of \$86 million and restricted cash of \$123 million. Cost of Debt and Debt-to-Equity were 6.0% and 6.3x, respectively, for and at the end of the second quarter 2023 as compared to 3.0% and 3.9x, respectively, for and at the end of the prior-year quarter. As of June 30, 2023, the Company had \$186 million of undrawn capacity on its existing \$600 million personal loan warehouse line. The Company's personal loan warehouse line is committed through September 2024. As of June 30, 2023, the Company had \$46 million of undrawn capacity on its existing \$120 million credit card warehouse line. The Company's credit card warehouse line is committed through December 2024.

On June 16, 2023, and August 3, 2023, the Company entered into forward flow whole loan sale agreements and has a commitment to sell up to \$300 million and \$400 million of its personal loan originations over the following twelve-month periods, respectively. During the three months ended June 30, 2023, the Company transferred loans receivable totaling \$25 million, pursuant to the June 16, 2023 arrangement, leaving a capacity of up to \$275 million. While the economics of these transactions are structured as whole loan sales, they do not qualify as sales for accounting purposes. Accordingly, the related assets remain on the Company's balance sheet and cash proceeds received are recorded as a secured borrowing.

Financial Outlook for Third Quarter and Full Year 2023

Oportun is providing the following guidance for 3Q 2023 and full year 2023 as follows:

	3Q 2023	Full Year 2023
Total Revenue	\$260 - \$265 M	\$1,045 - \$1,055 M
Annualized Net Charge-Off Rate	11.7% +/- 15 bps	11.7% +/- 30 bps
Adjusted EBITDA	\$35 - \$40 M	\$70 - \$75 M

About Non-GAAP Financial Measures

This press release presents information about the Company's Adjusted Net Income (Loss), Adjusted EPS, Adjusted EBITDA, Adjusted Operating Efficiency, Adjusted Operating Expense and Adjusted Return on Equity ("ROE"), which are non-GAAP financial measures provided as a supplement to the results provided in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The Company believes these non-GAAP measures can be useful measures for period-to-period comparisons of its core business and provide useful information to investors and others in understanding and evaluating its operating results. Non-GAAP financial measures are provided in addition to, and not as a substitute for, and are not superior to, financial measures calculated in accordance with GAAP. In addition, the non-GAAP measures the Company uses, as presented, may not be comparable to similar measures used by other companies. Reconciliations of non-GAAP to GAAP measures can be found below.

Oportun Financial Corporation
ABOUT NON-GAAP FINANCIAL MEASURES
(unaudited)

This press release dated August 8, 2023 contains non-GAAP financial measures. The following tables reconcile the non-GAAP financial measures in this press release to the most directly comparable financial measures prepared in accordance with GAAP.

The Company believes that the provision of these non-GAAP financial measures can provide useful measures for period-to-period comparisons of Oportun's core business and useful information to investors and others in understanding and evaluating its operating results. However, non-GAAP financial measures are not calculated in accordance with GAAP and should not be considered as a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP. These non-GAAP financial measures do not reflect a comprehensive system of accounting, differ from GAAP measures with the same names, and may differ from non-GAAP financial measures with the same or similar names that are used by other companies.

Adjusted EBITDA

The Company defines Adjusted EBITDA as net income, adjusted to eliminate the effect of certain items as described below. The Company believes that Adjusted EBITDA is an important measure because it allows management, investors and its board of directors to evaluate and compare operating results, including return on capital and operating efficiencies, from period to period by making the adjustments described below. In addition, it provides a useful measure for period-to-period comparisons of Oportun's business, as it removes the effect of income taxes, certain non-cash items, variable charges and timing differences.

- The Company believes it is useful to exclude the impact of income tax expense, as reported, because historically it has included irregular income tax items that do not reflect ongoing business operations.
- The Company believes it is useful to exclude depreciation and amortization and stock-based compensation expense because they are non-cash charges.
- The Company believes it is useful to exclude the impact of interest expense associated with the Company's Corporate Financing, as it views this expense as related to its capital structure rather than its funding.
- The Company excludes the impact of certain non-recurring charges, such as expenses associated with our workforce optimization, acquisition and integration related expenses and other non-recurring charges because it does not believe that these items reflect ongoing business operations. Other non-recurring charges include litigation reserve, impairment charges, debt amendment and warrant amortization costs related to our Corporate Financing facility.
- The Company also reverses origination fees for Loans Receivable at Fair Value, net. The Company believes it is beneficial to exclude the uncollected portion of such origination fees, because such amounts do not represent cash received.
- The Company also reverses the fair value mark-to-market adjustment because it is a non-cash adjustment.

Adjusted Net Income

The Company defines Adjusted Net Income as net income adjusted to eliminate the effect of certain items as described below. The Company believes that Adjusted Net Income is an important measure of operating performance because it allows management, investors, and Oportun's board of directors to evaluate and compare its operating results, including return on capital and operating efficiencies, from period to period, excluding the after-tax impact of non-cash, stock-based compensation expense and certain non-recurring charges.

- The Company believes it is useful to exclude the impact of income tax expense (benefit), as reported, because historically it has included irregular income tax items that do not reflect ongoing business operations. The Company also includes the impact of normalized income tax expense by applying a normalized statutory tax rate.
- The Company believes it is useful to exclude the impact of certain non-recurring charges, such as expenses associated with our workforce optimization, acquisition and integration related expenses and other non-recurring charges because it does not believe that these items reflect its ongoing business operations. Other non-recurring charges include litigation reserve, impairment charges, debt amendment and warrant amortization costs related to our Corporate Financing facility.
- The Company believes it is useful to exclude stock-based compensation expense because it is a non-cash charge.

Adjusted Operating Efficiency and Adjusted Operating Expense

The Company defines Adjusted Operating Efficiency as Adjusted Operating Expense divided by total revenue. The Company defines Adjusted Operating Expense as total operating expenses adjusted to exclude stock-based compensation expense and certain non-recurring charges, such as expenses associated with our workforce optimization, acquisition and integration related expenses and other non-recurring charges. Other non-recurring charges include litigation reserve, impairment charges, and debt amendment costs related to our Corporate Financing facility. The Company believes Adjusted Operating Efficiency is an important measure because it allows management, investors and Oportun's board of directors to evaluate how efficiently the Company is managing costs relative to revenue. The Company believes Adjusted Operating Expense is an important measure because it allows management, investors and Oportun's board of directors to evaluate and compare its operating costs from period to period, excluding the impact of non-cash, stock-based compensation expense and certain non-recurring charges.

Adjusted Return on Equity

The Company defines Adjusted Return on Equity ("ROE") as annualized Adjusted Net Income divided by average stockholders' equity. Average stockholders' equity is an average of the beginning and ending stockholders' equity balance for each period. The Company believes Adjusted ROE is an important measure because it allows management, investors and its board of directors to evaluate the profitability of the business in relation to its stockholders' equity and how efficiently it generates income from stockholders' equity.

Adjusted EPS

The Company defines Adjusted EPS as Adjusted Net Income divided by weighted average diluted shares outstanding.

* Due to the uncertainty in macroeconomic conditions, we are unable to precisely forecast the fair value mark-to-market adjustments on our loan portfolio and asset-backed notes. As a result, while we expect there to be a fair value mark-to-market adjustment which will significantly increase GAAP net loss, the net loss number shown above assumes no change in the fair value mark-to-market adjustment. The impact of the actual fair value mark-to-market adjustment does not impact the calculation of Adjusted EBITDA because it has an equal and offsetting impact to net loss on a GAAP basis and our calculation of Adjusted EBITDA.
