Item 1.01. Entry into a Material Definitive Agreement

Personal Loan Warehouse Facility

On August 5, 2024 (the “Closing Date”), Oportun Financial Corporation (the “Company”) issued a press release announcing the closing of a new warehouse facility (the “PLW II Warehouse Facility”). In connection with the PLW II Warehouse Facility, Oportun PLW II Trust (the “Borrower”), a subsidiary of the Company, entered into a Loan and Security Agreement (the “Loan and Security Agreement”) with certain lenders from time to time party thereto (the “Lenders”), Wilmington Trust, National Association as collateral agent, administrative agent, paying agent, securities intermediary and depository bank (in such capacities, respectively, the “Collateral Agent,” the “Administrative Agent,” the “Paying Agent,” the “Securities Intermediary” and the “Depository Bank”). The PLW II Warehouse Facility has a three year term and a borrowing capacity of \$245.2 million.

Borrowings under the Loan and Security Agreement accrue interest at a rate equal to Term SOFR plus a weighted average spread of 3.08%. The advance rate for the PLW II Warehouse Facility is 95.0%, subject to certain delinquency and liquidity triggers that could lower the advance rate to 92.0%.

The Loan and Security Agreement includes customary representations and warranties, as well as affirmative and negative covenants. The Loan and Security Agreement contains customary events of default. The Lenders could elect to accelerate the maturity of the loans and/or terminate the commitments under the Loan and Security Agreement upon the occurrence and during the continuation of an event of default, and the Borrower could be required to repay all amounts outstanding under the Loan and Security Agreement.

The Loan and Security Agreement also contains certain financial maintenance covenants that require the Company and its subsidiaries to not exceed a specified leverage ratio, to maintain a minimum tangible net worth, and to maintain a minimum level of unrestricted cash or cash equivalents while any borrowings under the Loan and Security Agreement are outstanding.

A copy of the press release is attached hereto as Exhibit 99.1.

The foregoing description of the Loan and Security Agreement does not purport to be complete and is qualified in its entirety by reference to the full text of the Loan and Security Agreement, a copy of which will be filed as an exhibit to the Company's Quarterly Report on Form 10-Q.

Item 2.02. Results of Operations and Financial Condition

On August 8, 2024, the Company issued a press release regarding the Company's financial results for its fiscal quarter ended June 30, 2024. A copy of the Company's press release is furnished as Exhibit 99.2 to this report.

The information in this report, including Exhibit 99.2 attached hereto, is being furnished and shall not be treated as "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), nor shall it be deemed incorporated by reference into any registration statement or other document pursuant to the Securities Act of 1933, as amended (the "Securities Act"), or the Exchange Act regardless of any general incorporation language in such filing, except as expressly stated by specific reference in such filing.

Item 2.03. Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant

Oportun Reports Second Quarter 2024 Financial Results

Met or exceeded each guidance metric

Total operating expenses declined 20% year-over-year

New collaboration with Western Union to provide lending service

Signed letter of intent to sell credit card portfolio

\$245M warehouse facility executed after quarter-end

SAN CARLOS, CA – August 8, 2024 – Oportun Financial Corporation (Nasdaq: OPRT) ("Oportun", or the "Company") today reported financial results for the second quarter ended June 30, 2024.

"Overall, I'm pleased with our second quarter results and the progress we are making towards our long-term profitability targets. In addition, we performed at the better end or outperformed each of, our guidance metrics as we continued our 2024 business recovery," said Raul Vazquez, CEO of Oportun. "Enhancing our focus on our core products, we signed a non-binding letter of intent to sell our credit card portfolio. While this resulted in a \$(36) million mark-to-market impact lowering our quarterly GAAP earnings, we expect the credit card sale to enhance Adjusted EBITDA by approximately \$11 million during 2025, following its expected closing by the end of the third quarter of 2024 and subsequent wind-down of operations. We grew second quarter Adjusted EBITDA by 109% year-over-year to \$30 million and were profitable on an adjusted basis for the second consecutive quarter. I'm excited that our new lending-as-a-service collaboration with Western Union will enhance Oportun's brand awareness and application funnel while providing us with the potential to reach their millions of customers. Our capital partners have continued to demonstrate confidence in the quality of our loans and business model, as evidenced by our raising a new \$245 million warehouse facility since the end of the quarter. Overall, I'm pleased with our second quarter results and year-to-date performance, and I believe we are positioned to improve upon our performance in the second half, most notably with markedly higher adjusted profitability."

² Beginning 1Q24, we updated our calculations of Adjusted EBITDA and Adjusted Net Income (Loss). Prior periods presented here have been updated to reflect the prior period numbers on a comparable basis. See Appendix for non-GAAP reconciliation to the most comparable GAAP measure.

Business Highlights

- Aggregate Originations were \$435 million, compared to \$485 million in the prior-year quarter
- Portfolio Yield was 33.9%, an increase of 167 basis points compared to the prior-year quarter
- Owned Principal Balance at End of Period was \$2.7 billion, compared to \$3.0 billion in the prior-year quarter
- Annualized Net Charge-Off Rate of 12.3% as compared to 12.5% for the prior-year quarter
- 30+ Day Delinquency Rate of 5.0% as compared to 5.3% for the prior-year quarter

Financial and Operating Results

All figures are as of or for the quarter ended June 30, 2024, unless otherwise noted.

Operational Drivers

Originations – Aggregate Originations for the second quarter were \$435 million, a decrease of 10% as compared to \$485 million in the prior-year quarter. The decrease was primarily driven by a decrease in average loan size under a conservative credit posture from \$4,113 to \$3,261.

Portfolio Yield - Portfolio Yield for the second quarter was 33.9%, an increase of 167 basis points as compared to 32.2% in the prior-year quarter, primarily attributable to higher fees on loans.

Financial Results

Revenue – Total revenue for the second quarter was \$250 million, a decrease of 6% as compared to \$267 million in the prior-year quarter. The decrease was primarily attributable to a \$248 million decrease in our Average Daily Principal Balance partially offset by an increase in portfolio yield. Net revenue for the second quarter was \$60 million, compared to net revenue of \$118.6 million in the prior-year quarter primarily due to a \$36 million unfavorable net change in fair value associated with marking the credit card portfolio down to the sale price in a letter of intent, and an increase in interest expense.

Operating Expense and Adjusted Operating Expense¹ – For the second quarter, total operating expense was \$109 million, a decrease of 20% as compared to \$136 million in the prior-year quarter. The decrease is attributable to a combined set of cost reduction initiatives announced in 2023 and 2024, partially offset by a \$6 million impairment of the right-of-use asset for our Bay Area headquarters. The Company remains on track to reduce its operating expenses to \$97.5 million or below by the fourth quarter of 2024. Adjusted Operating Expense, which excludes stock-based compensation expense and certain non-recurring charges, decreased 23% year-over-year to \$94 million.

Net Income (Loss) and Adjusted Net Income (Loss)¹ – Net loss was \$31 million as compared to a net loss of \$15 million in the prior-year quarter. The increased loss was attributable to the aforementioned \$36 million unfavorable net change in fair value due to marking the credit card portfolio down to the anticipated sales price and the \$6 million impairment of the right-of-use asset for our Bay Area headquarters, partially offset by the execution of a set of cost reduction initiatives announced in 2023 and 2024. Adjusted Net Income was \$3.2 million as compared to Adjusted Net Income of \$6.2 million in the prior-year quarter. The decrease in Adjusted Net Income was attributable to the unfavorable net change in fair value partially offset by the aforementioned expense reduction initiatives.

Earnings (Loss) Per Share and Adjusted EPS¹ – GAAP net loss per share, basic and diluted, were both \$0.78 during the second quarter, compared to GAAP net loss per share, basic and diluted of \$0.41 in the prior-year quarter. Adjusted Earnings Per Share was \$0.08 as compared to \$0.17 in the prior-year quarter.

Adjusted EBITDA¹ – Adjusted EBITDA was \$30 million, up from \$14 million in the prior-year quarter, driven by expense reduction initiatives and lower net charge-offs, partially offset by higher interest expense.

Credit and Operating Metrics

Net Charge-Off Rate – The Annualized Net Charge-Off Rate for the quarter was 12.3%, compared to 12.5% for the prior-year quarter. Net Charge-offs for the quarter were down to \$84 million, compared to \$93 million for the prior-year quarter.

30+ Day Delinquency Rate – The Company's 30+ Day Delinquency Rate was 5.0% at the end of the quarter, compared to 5.3% at the end of the prior-year quarter.

Operating Expense Ratio and Adjusted Operating Expense Ratio¹ – Operating Expense Ratio for the quarter was 16.0% as compared to 18.2% in the prior-year quarter, a 224 basis point improvement. Adjusted Operating Expense Ratio was 13.8% as compared to 16.5% in the prior-year quarter, a 269 basis point improvement. The Adjusted Operating Expense Ratio excludes stock-based compensation expense and certain non-recurring charges, such as the Company's workforce optimization expenses. The improvement in Adjusted Operating Expense Ratio is primarily attributable to the Company's focus on reducing operating expenses, partially offset by a decrease in Average Daily Principal Balance under its conservative credit posture.

Return On Equity ("ROE") and Adjusted ROE¹ – ROE for the quarter was (34)%, as compared to (13)% in the prior-year quarter. The decline was attributable to the increased net loss. Adjusted ROE for the quarter was 4%, as compared to 6% in the prior-year quarter.

¹ Beginning 1Q24, we updated our calculations of Adjusted EBITDA, Adjusted Net Income (Loss) and Adjusted Operating Expense. To align with these updated calculations we also updated Adjusted EPS and Adjusted Return on Equity. Prior periods presented here have been updated to reflect the prior period numbers on a comparable basis. See Appendix for non-GAAP reconciliation to the most comparable GAAP measure.

Other Products

Secured personal loans – As of June 30, 2024, the Company had a secured personal loan receivables balance of \$123 million, virtually flat from \$122 million at the end of the second quarter 2023, and up 4.9% from \$117 million at the end of the fourth quarter of 2023. Available only in California as of the end of last year, Oportun now also offers secured personal loans in Texas, Florida, Arizona, New Jersey and Illinois. During 2023, secured personal loans losses ran approximately 350 basis points lower compared to unsecured personal loans, with revenue per loan over 50% higher due to larger average loan sizes.

Credit cards receivable – As of June 30, 2024, the Company had a credit cards receivable balance of \$94 million, down 20% from \$118 million at the end of the second quarter 2023. As previously indicated, the Company has signed a non-binding letter of intent to sell the credit card portfolio and is working to complete the sale in the third quarter of 2024.

Funding and Liquidity

As of June 30, 2024, total cash was \$237 million, consisting of cash and cash equivalents of \$73 million and restricted cash of \$164 million. Cost of Debt and Debt-to-Equity were 7.7% and 7.9x, respectively, for and at the end of the second quarter 2024 as compared to 5.6% and 6.3x, respectively, for and at the end of the prior-year quarter. As of June 30, 2024, the Company had \$501 million of undrawn capacity on its existing \$600 million personal loan warehouse line. The Company's personal loan warehouse line is committed through September 2024. Following the close of the second quarter, the Company raised a new \$245 million warehouse line committed through 2027. As of June 30, 2024, the Company had \$22 million of undrawn capacity on its existing \$80 million credit card warehouse line. The Company's credit card warehouse line is committed through December 2024, and is anticipated to be repaid in full upon completion of the sale of the credit card portfolio.

Financial Outlook for Third Quarter and Full Year 2024

Oportun is providing the following guidance for 3Q 2024 and full year 2024 as follows:

	3Q 2024	Full Year 2024
Total Revenue	\$248 - \$252M	\$995 - \$1,010M
Annualized Net Charge-Off Rate	12.3% +/- 15 bps	12.1% +/- 30 bps
Adjusted EBITDA ¹	\$23 - \$26M	\$84 - \$92M

¹ See the section entitled "About Non-GAAP Financial Measures" for an explanation of non-GAAP measures, including revised Adjusted EBITDA, and the table entitled "Reconciliation of Forward Looking Non-GAAP Financial Measures" for a reconciliation of non-GAAP to GAAP measures.

Conference Call

As previously announced, Oportun's management will host a conference call to discuss second quarter 2024 results at 5:00 p.m. ET (2:00 p.m. PT) today. For those unable to listen to the live broadcast, a webcast replay of the call will be available at <https://investor.oportun.com> for one year. An investor presentation that includes supplemental financial information and reconciliations of certain non-GAAP measures to their most directly comparable GAAP measures, will be available on the Investor Relations page of Oportun's website at <https://investor.oportun.com> prior to the start of the conference call.

About Non-GAAP Financial Measures

This press release presents information about the Company's Adjusted Net Income (Loss), Adjusted EPS, Adjusted EBITDA, Adjusted Operating Expense, Adjusted Operating Efficiency, Adjusted Operating Expense Ratio, and Adjusted ROE, which are non-GAAP financial measures provided as a supplement to the results provided in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The Company believes these non-GAAP measures can be useful measures for period-to-period comparisons of its core business and provide useful information to investors and others in understanding and evaluating its operating results. Non-GAAP financial measures are provided in addition to, and not as a substitute for, and are not superior to, financial measures calculated in accordance with GAAP. In addition, the non-GAAP measures the Company uses, as presented, may not be comparable to similar measures used by other companies. Reconciliations of non-GAAP to GAAP measures can be found below.

Oportun Financial Corporation
ABOUT NON-GAAP FINANCIAL MEASURES
(unaudited)

This press release dated August 8, 2024 contains non-GAAP financial measures. The following tables reconcile the non-GAAP financial measures in this press release to the most directly comparable financial measures prepared in accordance with GAAP.

The Company believes that the provision of these non-GAAP financial measures can provide useful measures for period-to-period comparisons of Oportun's core business and useful information to investors and others in understanding and evaluating its operating results. However, non-GAAP financial measures are not calculated in accordance with GAAP and should not be considered as a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP. These non-GAAP financial measures do not reflect a comprehensive system of accounting, differ from GAAP measures with the same names, and may differ from non-GAAP financial measures with the same or similar names that are used by other companies.

As previously announced on March 12, 2024, beginning with the quarter ended March 31, 2024 the Company has updated its calculation of Adjusted EBITDA and Adjusted Net Income for all periods. To align with these updated calculations we also updated Adjusted Operating Efficiency, Adjusted EPS and Adjusted Return on Equity. Comparable prior period Non-GAAP financial measures are included in addition to the previously reported metrics.

Adjusted EBITDA

The Company defines Adjusted EBITDA as net income, adjusted to eliminate the effect of certain items as described below. The Company believes that Adjusted EBITDA is an important measure because it allows management, investors and its board of directors to evaluate and compare operating results, including return on capital and operating efficiencies, from period to period by making the adjustments described below. In addition, it provides a useful measure for period-to-period comparisons of Oportun's business, as it removes the effect of income taxes, certain non-cash items, variable charges and timing differences.

- The Company believes it is useful to exclude the impact of income tax expense, as reported, because historically it has included irregular income tax items that do not reflect ongoing business operations.
- The Company believes it is useful to exclude depreciation and amortization and stock-based compensation expense because they are non-cash charges.
- The Company believes it is useful to exclude the impact of interest expense associated with the Company's corporate financing facilities, including the senior secured term loan and the residual financing facility, as it views this expense as related to its capital structure rather than its funding.
- The Company excludes the impact of certain non-recurring charges, such as expenses associated with our workforce optimization, and other non-recurring charges because it does not believe that these items reflect ongoing business operations. Other non-recurring charges include litigation reserve, impairment charges, debt amendment and warrant amortization costs related to our corporate financing facilities.
- The Company also excludes fair value mark-to-market adjustments on its loans receivable portfolio and asset-backed notes carried at fair value because these adjustments do not impact cash.

Adjusted Net Income

The Company defines Adjusted Net Income as net income adjusted to eliminate the effect of certain items as described below. The Company believes that Adjusted Net Income is an important measure of operating performance because it allows management, investors, and the Company's board of directors to evaluate and compare its operating results, including return on capital and operating efficiencies, from period to period, excluding the after-tax impact of non-cash, stock-based compensation expense and certain non-recurring charges.

- The Company believes it is useful to exclude the impact of income tax expense (benefit), as reported, because historically it has included irregular income tax items that do not reflect ongoing business operations. The Company also includes the impact of normalized income tax expense by applying a normalized statutory tax rate.
- The Company believes it is useful to exclude the impact of certain non-recurring charges, such as expenses associated with our workforce optimization, and other non-recurring charges because it does not believe that these items reflect its ongoing business operations. Other non-recurring charges include litigation reserve, impairment charges, debt amendment and warrant amortization costs related to our corporate financing facilities.

- The Company believes it is useful to exclude stock-based compensation expense because it is a non-cash charge.
- The Company also excludes the fair value mark-to-market adjustment on its asset-backed notes carried at fair value to align with the 2023 accounting policy decision to account for new debt financings at amortized cost.

Adjusted Operating Expense, Adjusted Operating Efficiency and Adjusted Operating Expense Ratio

The Company defines Adjusted Operating Expense as total operating expenses adjusted to exclude stock-based compensation expense and certain non-recurring charges, such as expenses associated with our workforce optimization, and other non-recurring charges. Other non-recurring charges include litigation reserve, impairment charges, and debt amendment costs related to our Corporate Financing facility. The Company defines Adjusted Operating Efficiency as Adjusted Operating Expense divided by total revenue. The Company defines Adjusted Operating Expense Ratio as Adjusted Operating Expense divided by Average Daily Principal Balance. The Company believes Adjusted Operating Expense is an important measure because it allows management, investors and Oportun's board of directors to evaluate and compare its operating costs from period to period, excluding the impact of non-cash, stock-based compensation expense and certain non-recurring charges. The Company believes Adjusted Operating Efficiency and Adjusted Operating Expense Ratio are important measures because they allow management, investors and Oportun's board of directors to evaluate how efficiently the Company is managing costs relative to revenue and Average Daily Principal Balance.

Adjusted Return on Equity

The Company defines Adjusted Return on Equity ("ROE") as annualized Adjusted Net Income divided by average stockholders' equity. Average stockholders' equity is an average of the beginning and ending stockholders' equity balance for each period. The Company believes Adjusted ROE is an important measure because it allows management, investors and its board of directors to evaluate the profitability of the business in relation to its stockholders' equity and how efficiently it generates income from stockholders' equity.

Adjusted EPS

The Company defines Adjusted EPS as Adjusted Net Income divided by weighted average diluted shares outstanding.

⁽¹⁾ Certain prior-period financial information has been reclassified to conform to current period presentation.

⁽²⁾ Our calculation of Adjusted EBITDA was updated in Q1 2024 to more closely align with management's internal view of the performance of the business. The Q2 2023 and YTD 2023 values for Adjusted EBITDA shown in the table above have been revised and presented on a comparable basis, prior to these revisions the values would have been \$4.3 million and \$(20.1) million, respectively.

⁽³⁾ Our calculation of Adjusted Net Income (Loss) was updated in Q1 2024 to more closely align with management's internal view of the performance of the business. The Q2 2023 and YTD 2023 values for Adjusted Net Income (Loss) shown in the table above have been revised and presented on a comparable basis, prior to these revisions the values would have been \$2.3 million and \$(85.9) million, respectively.

⁽⁴⁾ Calculated as Adjusted Net Income (Loss) divided by average stockholders' equity. ROE has been annualized. Due to the Adjusted Net Income (Loss) revisions in Q1 2024, the Q2 2023 and YTD 2023 Adjusted ROE values would have been 2.0% and (34.4)%, respectively.

* Due to the uncertainty in macroeconomic conditions, we are unable to precisely forecast the fair value mark-to-market adjustments on our loan portfolio and asset-backed notes. As a result, while we fully expect there to be a fair value mark-to-market adjustment which could have an impact on GAAP net income (loss), the net income (loss) number shown above assumes no change in the fair value mark-to-market adjustment.
