Oportun Reports Third Quarter 2024 Financial Results

Met or outperformed each guidance metric

Total operating expenses declined 17% year-over-year

Credit card portfolio sale complete

Corporate debt refinancing expected to close on November 14th

SAN CARLOS, CA – November 12, 2024 – Oportun Financial Corporation (Nasdaq: OPRT) ("Oportun", or the "Company") today reported financial results for the third quarter ended September 30, 2024.

"I'm pleased that our third quarter results met or exceeded our expectations on each of our guidance metrics," said Raul Vazquez, CEO of Oportun. "We generated total revenue of \$250 million, while our Annualized Net Charge-Off Rate declined 40 basis points sequentially to 11.9% as we reported lower year-over-year dollar net charge-offs for the fourth consecutive quarter. In addition, we narrowed our GAAP net loss sequentially while being Adjusted Net Income profitable for the third consecutive quarter this year, and more than doubled our Adjusted EBITDA year-over-year by generating \$31 million, exceeding the top of our guidance range by 21%. We're now well positioned to responsibly resume originations growth while further enhancing our profitability year-over-year and finishing strong in the fourth quarter of 2024. This will provide momentum going into 2025, towards our preliminary expectations for full year GAAP profitability of \$0.25 to \$0.50 Diluted EPS, generating \$1.00 to \$1.25 of Adjusted EPS, and continuing to improve upon our credit performance."

² Beginning 1Q24, we updated our calculations of Adjusted EBITDA and Adjusted Net Income (Loss). Prior periods presented here have been updated to reflect the prior period numbers on a comparable basis. See Appendix for non-GAAP reconciliation to the most comparable GAAP measure.

Business Highlights

- Aggregate Originations were \$480 million, compared to \$483 million in the prior-year quarter
- Portfolio Yield was 33.2%, an increase of 69 basis points compared to the prior-year quarter
- Owned Principal Balance at End of Period was \$2.7 billion, compared to \$2.9 billion in the prior-year quarter
- Annualized Net Charge-Off Rate of 11.9% as compared to 11.8% for the prior-year quarter
- 30+ Day Delinquency Rate of 5.2% as compared to 5.5% for the prior-year quarter

Financial and Operating Results

All figures are as of or for the quarter ended September 30, 2024, unless otherwise noted.

Operational Drivers

Originations – Aggregate Originations for the third quarter were \$480 million, virtually flat compared to \$483 million in the prior-year quarter, despite a decrease in average loan size under a conservative credit posture from \$3,975 to \$3,244.

Portfolio Yield - Portfolio Yield for the third quarter was 33.2%, an increase of 69 basis points as compared to 32.5% in the prior-year quarter, primarily attributable to increased pricing on loans.

Financial Results

Revenue – Total revenue for the third quarter was \$250 million, a decrease of 7% as compared to \$268 million in the prior-year quarter. The decrease was primarily attributable to a 7% decline in our Average Daily Principal Balance. Net revenue for the third quarter was \$63 million, compared to net revenue of \$85 million in the prior-year quarter primarily due to the decline in total revenue, a non-cash mark on our ABS notes due to their weighted average price increasing from 96.0% to 97.8% and an increase in interest expense.

Operating Expense and Adjusted Operating Expense¹ – For the third quarter, total operating expense was \$102 million, a decrease of 17% as compared to \$123 million in the prior-year quarter. The decrease is attributable to a combined set of cost reduction initiatives announced in 2023 and 2024. The Company remains on track to reduce its operating expenses to \$97.5 million or below by the fourth quarter of 2024. Adjusted Operating Expense, which excludes stock-based compensation expense and certain non-recurring charges, decreased 17% year-over-year to \$96 million.

Net Income (Loss) and Adjusted Net Income (Loss)¹ – Net loss was \$30 million as compared to a net loss of \$21 million in the prior-year quarter. The increased loss was attributable to the decline in total revenue, a non-cash mark on our ABS notes due to their weighted average price increasing from 96.0% to 97.8% and an increase in interest expense, partially offset by lower operating expenses. Adjusted Net Income was \$0.9 million as compared to Adjusted Net Loss of \$12 million in the prior-year quarter. The increase in Adjusted Net Income was attributable to the aforementioned expense reduction initiatives, along with lower net charge-offs.

Earnings (Loss) Per Share and Adjusted EPS¹ – GAAP net loss per share, basic and diluted, were both \$0.75 during the third quarter, compared to GAAP net loss per share, basic and diluted of \$0.55 in the prior-year quarter. Adjusted Earnings Per Share was \$0.02 as compared to \$(0.31) in the prior-year quarter.

Adjusted EBITDA¹ – Adjusted EBITDA was \$31 million, up from \$14 million in the prior-year quarter, driven by expense reduction initiatives and lower net charge-offs, partially offset by higher interest expense.

Credit and Operating Metrics

Net Charge-Off Rate – The Annualized Net Charge-Off Rate for the quarter was 11.9%, compared to 11.8% for the prior-year quarter. Net Charge-offs for the quarter were down to \$82 million, compared to \$88 million for the prior-year quarter.

30+ Day Delinquency Rate – The Company's 30+ Day Delinquency Rate was 5.2% at the end of the quarter, compared to 5.5% at the end of the prior-year quarter.

Operating Expense Ratio and Adjusted Operating Expense Ratio¹ – Operating Expense Ratio for the quarter was 14.7% as compared to 16.4% in the prior-year quarter, a 164 basis point improvement. Adjusted Operating Expense Ratio was 13.9% as compared to 15.6% in the prior-year quarter, a 165 basis point improvement. The Adjusted Operating Expense Ratio excludes stock-based compensation expense and certain non-recurring charges, such as expenses related to the credit card portfolio sale. The improvement in Adjusted Operating Expense Ratio is primarily attributable to the Company's focus on reducing operating expenses, partially offset by a decrease in Average Daily Principal Balance under its conservative credit posture.

Return On Equity ("ROE") and Adjusted ROE¹ – ROE for the quarter was (35)%, as compared to (19)% in the prior-year quarter. The decline was attributable to the increased net loss. Adjusted ROE for the quarter was 1.1%, as compared to (10)% in the prior-year quarter.

¹ Beginning 1Q24, we updated our calculations of Adjusted EBITDA, Adjusted Net Income (Loss) and Adjusted Operating Expense. To align with these updated calculations we also updated Adjusted EPS and Adjusted Return on Equity. Prior periods presented here have been updated to reflect the prior period numbers on a comparable basis. See Appendix for non-GAAP reconciliation to the most comparable GAAP measure.

Other Products

Secured personal loans – As of September 30, 2024, the Company had a secured personal loan receivables balance of \$141 million, up from \$119 million at the end of the third quarter of 2023. Available only in California as of the end of last year, Oportun now also offers secured personal loans in Texas, Florida, Arizona, New Jersey and Illinois. Through the first three quarters of 2024, secured personal loans losses have run over 500 basis points lower compared to unsecured personal loans, with revenue per loan over 60% higher due to larger average loan sizes.

Credit cards receivable – As of September 30, 2024, the Company had a credit cards receivable balance of \$89 million, down 23% from \$116 million at the end of the third quarter of 2023. On September 24, 2024, the Company signed a definitive agreement to sell its credit card portfolio, and the sale has closed as of the date of this release.

Funding and Liquidity

As of September 30, 2024, total cash was \$229 million, consisting of cash and cash equivalents of \$72 million and restricted cash of \$157 million. Cost of Debt and Debt-to-Equity were 7.8% and 8.7x, respectively, for and at the end of the third quarter 2024 as compared to 6.3% and 6.6x, respectively, for and at the end of the prior-year quarter. As of September 30, 2024, the Company had \$476 million of undrawn capacity on its personal loan warehouse lines totaling \$552 million. As of September 30, 2024, the Company had \$7 million of undrawn capacity on its existing \$60 million credit card warehouse line. The Company's credit card warehouse line has been repaid in full and terminated as of the date of this release, concurrent with the sale of the credit card portfolio.

Financial Outlook for Fourth Quarter and Full Year 2024

Oportun is providing the following guidance for 4Q 2024 and full year 2024 as follows:

	4Q 2024	Full Year 2024
Total Revenue	\$246 - \$250M	\$997 - \$1,001M
Annualized Net Charge-Off Rate	11.8% +/- 15 bps	12.0% +/- 10 bps
Adjusted EBITDA ¹	\$28 - \$30M	\$92 - \$94M

¹ See the section entitled "About Non-GAAP Financial Measures" for an explanation of non-GAAP measures, including revised Adjusted EBITDA, and the table entitled "Reconciliation of Forward Looking Non-GAAP Financial Measures" for a reconciliation of non-GAAP to GAAP measures.

As previously announced, Oportun's management will host a conference call to discuss third quarter 2024 results at 5:00 p.m. ET (2:00 p.m. PT) today. A live webcast of the call will be accessible from the Investor Relations page of Oportun's website at <https://investor.oportun.com>. The dial-in number for the conference call is 1-866-604-1698 (toll-free) or 1-201-389-0844 (international). Participants should call in 10 minutes prior to the scheduled start time. Both the call and webcast are open to the general public. For those unable to listen to the live broadcast, a webcast replay of the call will be available at <https://investor.oportun.com> for one year. A file that includes supplemental financial information and reconciliations of certain non-GAAP measures to their most directly comparable GAAP measures, will be available on the Investor Relations page of Oportun's website at <https://investor.oportun.com> following the conference call.

About Non-GAAP Financial Measures

This press release presents information about the Company's Adjusted Net Income (Loss), Adjusted EPS, Adjusted EBITDA, Adjusted Operating Expense, Adjusted Operating Efficiency, Adjusted Operating Expense Ratio, and Adjusted ROE, which are non-GAAP financial measures provided as a supplement to the results provided in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The Company believes these non-GAAP measures can be useful measures for period-to-period comparisons of its core business and provide useful information to investors and others in understanding and evaluating its operating results. Non-GAAP financial measures are provided in addition to, and not as a substitute for, and are not superior to, financial measures calculated in accordance with GAAP. In addition, the non-GAAP measures the Company uses, as presented, may not be comparable to similar measures used by other companies. Reconciliations of non-GAAP to GAAP measures can be found below.

Oportun Financial Corporation **ABOUT NON-GAAP FINANCIAL MEASURES** **(unaudited)**

This press release dated November 12, 2024 contains non-GAAP financial measures. The following tables reconcile the non-GAAP financial measures in this press release to the most directly comparable financial measures prepared in accordance with GAAP.

The Company believes that the provision of these non-GAAP financial measures can provide useful measures for period-to-period comparisons of Oportun's core business and useful information to investors and others in understanding and evaluating its operating results. However, non-GAAP financial measures are not calculated in accordance with GAAP and should not be considered as a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP. These non-GAAP financial measures do not reflect a comprehensive system of accounting, differ from GAAP measures with the same names, and may differ from non-GAAP financial measures with the same or similar names that are used by other companies.

As previously announced on March 12, 2024, beginning with the quarter ended March 31, 2024 the Company has updated its calculation of Adjusted EBITDA and Adjusted Net Income for all periods. To align with these updated calculations the Company also updated Adjusted Operating Efficiency, Adjusted EPS and Adjusted Return on Equity. Comparable prior period Non-GAAP financial measures are included in addition to the previously reported metrics.

Adjusted EBITDA

The Company defines Adjusted EBITDA as net income, adjusted to eliminate the effect of certain items as described below. The Company believes that Adjusted EBITDA is an important measure because it allows management, investors and its board of directors to evaluate and compare operating results, including return on capital and operating efficiencies, from period to period by making the adjustments described below. In addition, it provides a useful measure for period-to-period comparisons of Oportun's business, as it removes the effect of income taxes, certain non-cash items, variable charges and timing differences.

- The Company believes it is useful to exclude the impact of income tax expense, as reported, because historically it has included irregular income tax items that do not reflect ongoing business operations.
- The Company believes it is useful to exclude depreciation and amortization and stock-based compensation expense because they are non-cash charges.
- The Company believes it is useful to exclude the impact of interest expense associated with the Company's corporate financing facilities, including the senior secured term loan and the residual financing facility, as it views this expense as related to its capital structure rather than its funding.
- The Company excludes the impact of certain non-recurring charges, such as expenses associated with our workforce optimization, and other non-recurring charges because it does not believe that these items reflect ongoing business operations. Other non-recurring charges include litigation reserve, impairment charges, debt amendment and warrant amortization costs related to our corporate financing facilities.
- The Company also excludes fair value mark-to-market adjustments on its loans receivable portfolio and asset-backed notes carried at fair value because these adjustments do not impact cash.

Adjusted Net Income

The Company defines Adjusted Net Income as net income adjusted to eliminate the effect of certain items as described below. The Company believes that Adjusted Net Income is an important measure of operating performance because it allows management, investors, and the Company's board of directors to evaluate and compare its operating results, including return on capital and operating efficiencies, from period to period, excluding the after-tax impact of non-cash, stock-based compensation expense and certain non-recurring charges.

- The Company believes it is useful to exclude the impact of income tax expense (benefit), as reported, because historically it has included irregular income tax items that do not reflect ongoing business operations. The Company also includes the impact of normalized income tax expense by applying a normalized statutory tax rate.
- The Company believes it is useful to exclude the impact of certain non-recurring charges, such as expenses associated with our workforce optimization, and other non-recurring charges because it does not believe that these items reflect its

ongoing business operations. Other non-recurring charges include litigation reserve, impairment charges, debt amendment and warrant amortization costs related to our corporate financing facilities.

- The Company believes it is useful to exclude stock-based compensation expense because it is a non-cash charge.
- The Company also excludes the fair value mark-to-market adjustment on its asset-backed notes carried at fair value to align with the 2023 accounting policy decision to account for new debt financings at amortized cost.

Adjusted Operating Expense, Adjusted Operating Efficiency and Adjusted Operating Expense Ratio

The Company defines Adjusted Operating Expense as total operating expenses adjusted to exclude stock-based compensation expense and certain non-recurring charges, such as expenses associated with our workforce optimization, and other non-recurring charges. Other non-recurring charges include litigation reserve, impairment charges, and debt amendment costs related to our Corporate Financing facility. The Company defines Adjusted Operating Efficiency as Adjusted Operating Expense divided by total revenue. The Company defines Adjusted Operating Expense Ratio as Adjusted Operating Expense divided by Average Daily Principal Balance. The Company believes Adjusted Operating Expense is an important measure because it allows management, investors and Oportun's board of directors to evaluate and compare its operating costs from period to period, excluding the impact of non-cash, stock-based compensation expense and certain non-recurring charges. The Company believes Adjusted Operating Efficiency and Adjusted Operating Expense Ratio are important measures because they allow management, investors and Oportun's board of directors to evaluate how efficiently the Company is managing costs relative to revenue and Average Daily Principal Balance.

Adjusted Return on Equity

The Company defines Adjusted Return on Equity ("ROE") as annualized Adjusted Net Income divided by average stockholders' equity. Average stockholders' equity is an average of the beginning and ending stockholders' equity balance for each period. The Company believes Adjusted ROE is an important measure because it allows management, investors and its board of directors to evaluate the profitability of the business in relation to its stockholders' equity and how efficiently it generates income from stockholders' equity.

Adjusted EPS

The Company defines Adjusted EPS as Adjusted Net Income divided by weighted average diluted shares outstanding.

Oportun Completes Sale of its Credit Card Portfolio

SAN CARLOS, Calif., Nov. 12, 2024 (GLOBE NEWSWIRE) -- Oportun (Nasdaq: OPRT), a mission-driven financial services company, today announced that it has closed the [previously agreed upon](#) sale of its credit card portfolio to Continental Finance. Completing the transaction reflects a key milestone towards Oportun's initiative to enhance profitability in 2024 and beyond by simplifying the business and driving performance in its three core products: unsecured personal loans, secured personal loans, and its award-winning Set & Save™ savings product.

"We expect that closing the credit card portfolio sale will be highly accretive for our shareholders, and I'm pleased to reiterate our expectation that it will result in incremental Adjusted EBITDA of approximately \$2 million in the fourth quarter of 2024, and \$11 million in full year 2025," said Jonathan Coblentz, Chief Financial Officer & Chief Administrative Officer of Oportun. "Continental Finance is a leading credit card marketer and servicer, and I'm confident that they will provide the type of exceptional, personalized service that their new customers have become accustomed to as Oportun members."

"Continental Finance, along with its partner bank, is pleased to assume Oportun's approximately \$100 million credit card portfolio. The Continental team thoroughly enjoyed collaborating with the Oportun team to ensure a smooth transition of the legacy Oportun credit card holders. Continental is committed to delivering an exceptional customer experience and intends to extend the same world-class service to the legacy Oportun customers under Continental's Revel Card brand," said Tamer El-Rayess, Chairman of Continental Finance.
